Dear Mr. Knoblen:

Thank you for choosing Kennel Club USA as a member for the United States. We look forward to a long relationship. Kennel Club USA is honored to become a member of Union Cynologie International e.V. (UCI e.V.). Kennel Club USA is a sister organization of the American Rare Breed Association known as ARBA. ARBA has been in existence since 1991, with its mission to get breeds that are recognized all over the world, essentially FCI breeds recognized by the American Kennel Club. We have helped over 40 breeds to be recognized by the American Kennel Club (AKC) to date. ARBA is simply for the "Rare Breeds" in the United States. When we decided to offer an International Championship to our exhibitors we looked at several organizations. We chose your organization because of its good name in the dog world.

The information enclosed will help you make the changes to your website:
